To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Art Unit 1656. Applicant's Request for Continued Examination, filed May 9, 2005, is acknowledged. It is acknowledged that applicants have amended Claim 71. Claims 68-87 are pending and are hereby reconsidered.

#### ***Allowable Subject Matter***

Claims 68-87 are allowed.

The following is an examiner's statement of reasons for allowance:

All elected Claims, 68-87, are limited to a method of screening for modulators of inflammatory cytokine production by testing compounds for inhibition of binding between TAK1 and TAB1. The reasons said methods have patentable utility are described in the Notice of Allowance mailed December 27, 2004. Said Notice of Allowance also explains why the allowed invention is novel and non-obvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
